

## Dream Code

```
# Generating a random number between 1000 and 9999
rand_num = random.randint(1000, 9999)

# Combining initials and random number to create username
username = initials + str(rand_num)

return username
```

```
Enter your name: jabari
Enter your favorite color: Purple
Enter your favorite animal: Goat
Generated username: jpg8603
Generated password: Jabari_purple_goat
```

## Tired of Signing Up ?

- This new code makes it fast and simple to take some things that you like and generate a fun username and safe password.
